Here is some background info you can use as talking points, if you wish, when you meet with the folks from the PR Senate. If you have any questions about it, let me know.

Yes it closes it out. We'll let you know that if we get mtg. For now, Judith says stand down on finishing fact sheet. If she has mtg, that's sufficient.

O.K. That sounds good. Does that close out the response, or do we still need a written response?

Catherine had asked Paul to write something up related to the coal ash rule and where it may be in terms of litigation (which would have to be run by the experts in OGC) and Judith had asked for a public fact sheet. Paul is working on the request from Catherine, and the fact sheet is, candidly, a bit of a challenge as I am awaiting details about the CWA action we took in March 2015. I am not sure we will have enough information to develop a meaningful fact sheet.

Judith and Carmen will inform Senate that they can't testify at hearing and are suggesting instead that they meet with Senate President (who's been supportive of EPA) while JE is here.
